

15-16 March 2018

Portorož

Slovenia

Workshop 'Maritime Spatial Planning in Small Sea Spaces'

The challenges of maritime spatial plan for Slovenia

Lenča Humerca Šolar

Ministry of the Environment and Spatial Planning of Slovenia

EUROPEAN COMMISSION

DIRECTORATE-GENERAL FOR MARITIME AFFAIRS AND FISHERIES

Characteristics which influence Slovene MSP

- ❖ relatively small aquatory and short coast line;
- ❖ **numerous activities and uses (traditional and modern);**
- ❖ strong protection reasons;
- ❖ sector approach /weak tradition in maritime spatial planning;
- ❖ international, national, regional and local potential;
- ❖ divided jurisdiction between the national and the local level;
- ❖ strong alliance with terrestrial spatial plans - **LSI is important issue in all of the plans and processes!**

EUROPEAN COMMISSION

Maritime Spatial Planning in
Small Sea Spaces
Portorož - 15 & 16 March 2018

MSP in Slovenia

- ❖ **common (spatial) development strategy for the sea and the coastal zone!**
- ❖ inter sectoral and **cross border reconciled sea use plan** with a criteria framework for future projects, tackling also land spatial development !

EUROPEAN COMMISSION

DIRECTORATE-GENERAL FOR MARITIME AFFAIRS AND FISHERIES

Maritime Spatial Planning in
Small Sea Spaces
Portorož - 15 & 16 March 2018

Activities and uses, relevant for the Slovenian MSP

- ❖ blue technologies, although still at a nascent stage;
- ❖ nature protection;
- ❖ short sea shipping;
- ❖ deep-sea shipping;
- ❖ maritime and coastal tourism;
- ❖ cruise tourism;
- ❖ fisheries;
- ❖ marine aquaculture;
- ❖ cultural heritage sites.

EUROPEAN COMMISSION

Maritime Spatial Planning in
Small Sea Spaces
Portorož - 15 & 16 March 2018

European
MSP Platform

Numerous , activities and uses (traditional and modern), numerous interests and development needs

Some evidenced multiuses which will need special attention within MSP process

- ❖ aquaculture / port and berth area
- ❖ aquaculture / fishing reserve
- ❖ fishing zone / international waterway
- ❖ works with explosives / international waterway
- ❖ bathing waters / international waterway

Missing instruments? Especially on the international level...

In this context, thank you all for the exercise yesterday!

EUROPEAN COMMISSION

Small Sea Spaces
Portorož - 15 & 16 March 2018

MSP index

Legal, methodological and territorial frame

Monitoring and evaluation system

Inputs from hierarhicaly superordinate documents

Analysis of state, processes, restrictions and development needs

Analysis of already present and expected land use conflicts

Scenarios and the vision of future development for the area

Argumented MSP including the environmental report

Implementation measures

Guidelines for subordinate documents

EUROPEAN COMMISSION

Maritime Spatial Planning in
Small Sea Spaces
Portorož - 15 & 16 March 2018

MSP form: texts and maps

Maps on strategic level (scale 1:250.000)

- Slovene MSP in international context
- existing and expected strategic land uses
- cross-border cooperation
- vision of future development for the area in broader context

Maps on planning level (scale 1:50.000)

- existing and expected land uses according to directive demands
- processes, restrictions and development needs
- already present and expected land use conflicts
- possible scenarios of future development
- augmented MSP

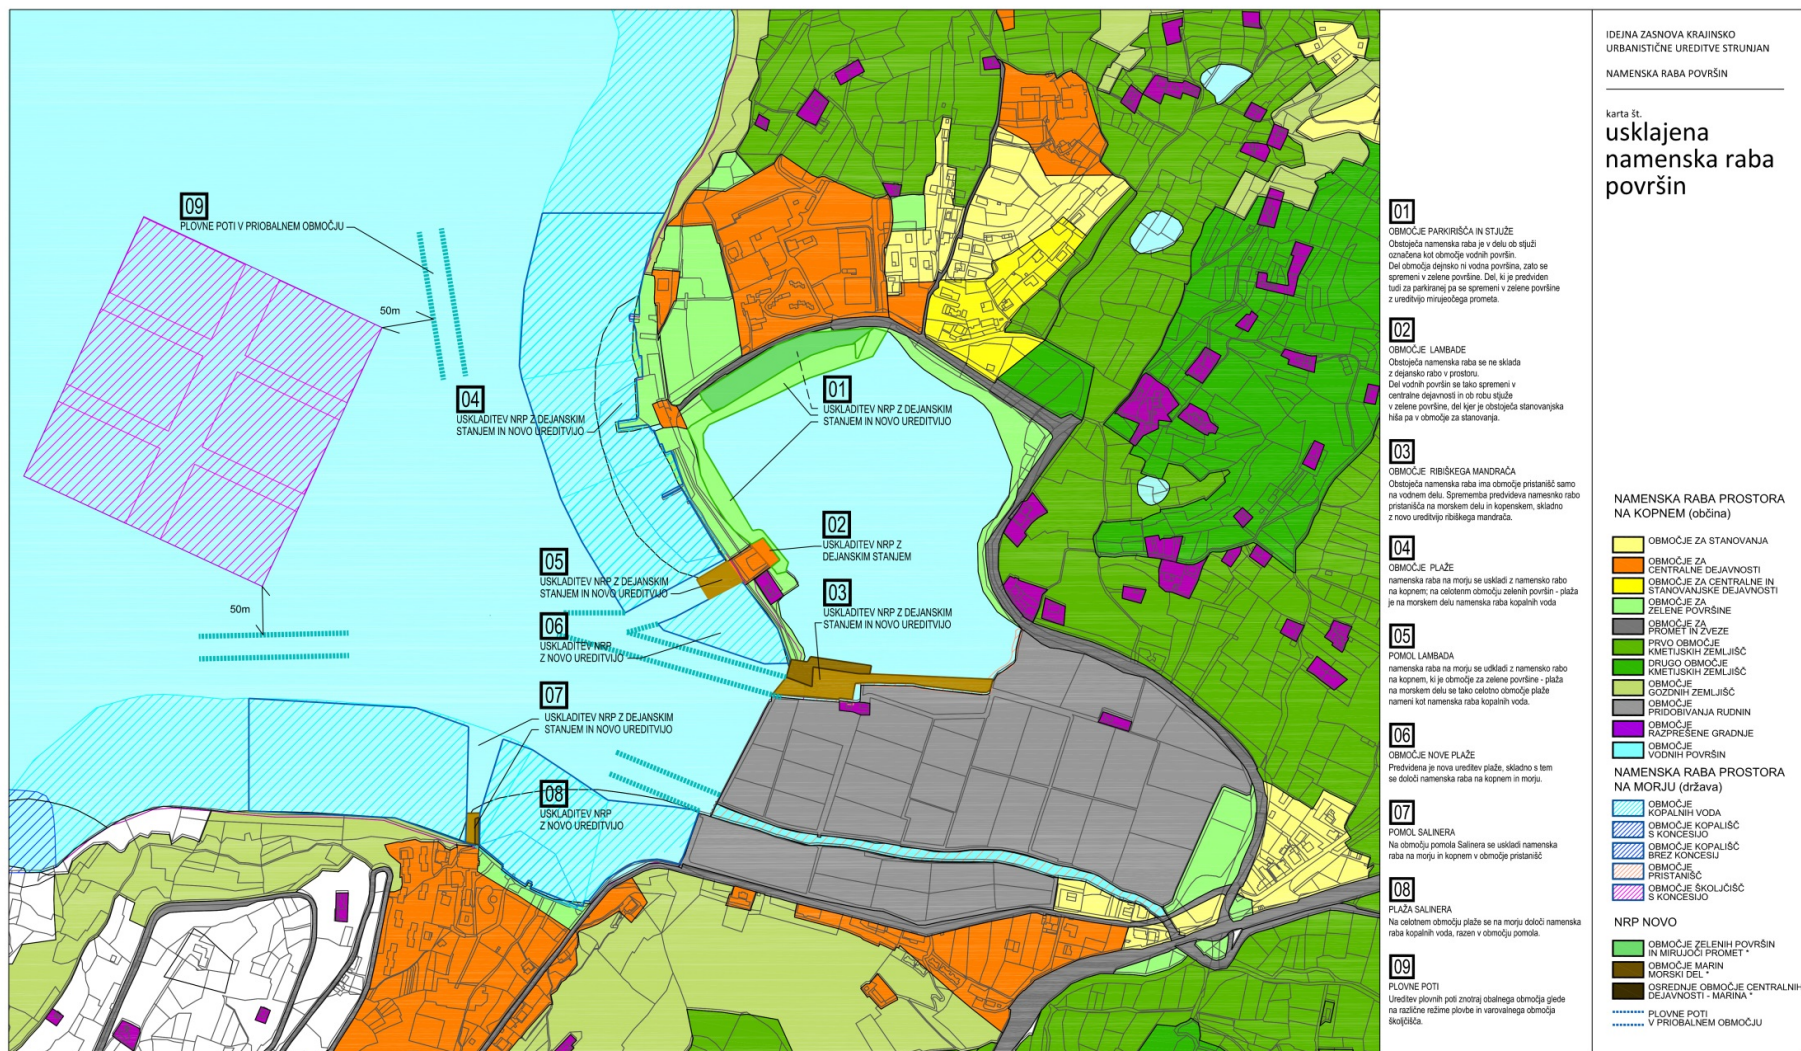

EUROPEAN COMMISSION

DIRECTORATE-GENERAL FOR MARITIME AFFAIRS AND FISHERIES

Maritime Spatial Planning in
Small Sea Spaces
Portorož - 15 & 16 March 2018

Harmonised proposal: Maritime and Coastal Spatial Plan

EUROPEAN COMMISSION

DIRECTORATE-GENERAL FOR MARITIME AFFAIRS AND FISHERIES

Maritime Spatial Planning in
Small Sea Spaces
Portorož - 15 & 16 March 2018

Important side activities

Good planning and implementation structure:

- establishment of constructive working contacts on international, national and subnational levels;
- cooperation of different stakeholders (administration, education, experts, NGO's, locals,...).

Common EB approach + Strategic/Environmental impact assessment

Definition of key issues which need to be planned and realised in macroregional, sea basin context – macroregional approach!
