Check out the detailed European Blue Forum Annual Meeting Agenda [here](#).

If you haven't already, REGISTER NOW

Key topics to be discussed are related but not limited to understanding and assessing cumulative impacts of maritime and coastal activities, addressing land-sea interaction challenges, using the knowledge of the ocean to instill a desire to protect it, and how we can accelerate technology transfer from research to innovation to boost European competitiveness and thus make the Blue Economy more sustainable?

Why Attend?

Engage in Interactive Workshops: Our workshops are more than just discussions; they're catalysts for action! Collaborate with fellow stakeholders in dynamic sessions aimed at turning blue economy concepts into tangible solutions.

Make Your Voice Heard: Your insights are invaluable. Seize this opportunity to voice your concerns, share success stories, and help shape the future of the European blue economy.

Build Sustainable Practices: Actions speak louder than words. Join us to explore innovative strategies, best practices, and collaborative approaches that will drive real change in ocean sustainability.

Want to find out more about the European Blue Forum?

If you haven't already, we encourage you to become a member of the European Blue Forum so stay informed about our exciting activities and events within our dynamic Blue Community. Our rapidly growing pan-European Blue Community now numbers approximately 600 members and we are looking to expand further. Since its inception, the European Blue Forum aims to ensure the voices of all our members are heard, and that they can have an influence on future EU Blue Economy policy. Our goal is to continue uniting voices from all corners of the sea, harnessing our shared passion and commitment to come together as a 'Blue Community' and collaboratively tackle the pressing challenges facing our oceans. To become a member of the European Blue Forum, please register [here](#).
