

Communicating MSP
Inform and engage stakeholders and citizens throughout the MSP process

[CLICK HERE](#)

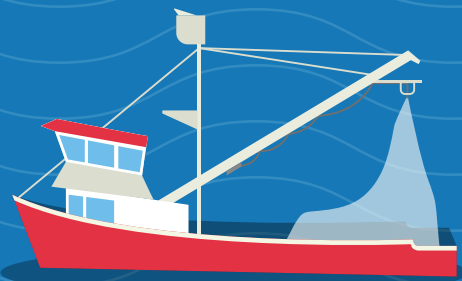

NAVIGATING THE MSP PROCESS

Preparing the MSP process approach

Prepare the MSP process and make sure you won't forget any element of the journey

[CLICK HERE](#)

Gathering and structuring the relevant data

Identify and organise input spatial information with the MSP data framework structure all along the MSP Process

[CLICK HERE](#)

Monitoring, evaluating and reviewing the MSP

Draw upon methods and tools for the monitoring, evaluation and/or revision of your MSP

[CLICK HERE](#)

[CLICK HERE](#)

Establishing the legislative basis for MSP

Gather the essential components and subcomponents of MSP legislation which legal drafters should take into consideration to build coherent legislation

[CLICK HERE](#)

Structure the metadata and present your plan in a harmonised way

[CLICK HERE](#)

Collect and analyse relevant data on socioeconomic activities, and make sure your plan has positive social and economic impacts

[CLICK HERE](#)

Make your data public with the support of the European Marine Observatory and Data network

[CLICK HERE](#)

Adopt the Ecosystem Based Approach and make sure your MSP fully integrates the interaction between ecosystems and human activities all along the process
