

Communicating MSP
Inform and engage stakeholders
and citizens throughout the MSP process

NAVIGATING THE MSP PROCESS

msp
global

European
MSP Platform

Preparing the MSP process approach

Prepare the MSP
process and make sure
you won't forget any
element of the journey

Establishing the legislative basis for MSP

Gather the essential
components and
subcomponents of MSP
legislation which legal
drafters should take into
consideration to build
coherent legislation

Gathering and structuring the relevant data

Identify and organise
input spatial information
with the MSP data
framework structure all
along the MSP Process

Structure the
metadata and
present your plan in
a harmonised way

Collect and analyse relevant
data on socioeconomic
activities, and make sure
your plan has positive social
and economic impacts

Make your data public
with the support of
the European Marine
Observatory and
Data network

Monitoring, evaluating and reviewing the MSP

Draw upon methods and
tools for the monitoring,
evaluation and/or revision
of your MSP

Adopt the Ecosystem
Based Approach and make
sure your MSP fully integrates
the interaction between
ecosystems and human
activities all along the process
