

# Adoption of MSP: engagement by involvement

&

March 16th 2021

# Adoption of MSP: engagement by involvement

- Loire-Atlantique (France)
  - Shared diagnosis to design the maritime and coastal capital to design the future “ maritime and coastal challenge”
  - Partnership charter endorsement with shared challenges for which MSP can contribute for the Blue economy but also for planning (SCOT)

# Adoption of MSP: engagement by involvement

MSP is a cyclic process for its definition to its revision

Stakeholders engagement by involvement in its various steps but not only during the consultation period for a greater endorsement as a common plan.

Governance:

Good to distinguish the role of the stakeholders and public authorities in the process
